EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gregory Schivley on 21 December 2004.

2. The application has been amended as follows:
Claim 10 has been cancelled.

Allowable Subject Matter

3. Claims 1-9 and 11-31 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The prior art fails to teach or suggest one or more of the limitations found in independent claims 1, 11, and 20. Japanese Patent Publication 11-328343 to Taniguchi Yoshikuni and U.S. Patent No. 6,407,669 to Brown et al. both teach similar systems to that of the present application. However, with respect to independent claims 1, 11, and 20, Yoshikuni 11-328343 and the other prior art of record fails to teach or suggest an arm part, provided with a first pad part, a second pad part, and a conducting part for allowing conduction between the first pad part and the second pad part, being

Art Unit: 2821

collapsibly provided such that, when the arm part is collapsed, the other end of the loop antenna contacts the first pad part and the other antenna connection part of the communication circuit contacts the second pad part. Therefore, independent claims 1, 11, and 20, as well as all dependent claims, are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Citation of Pertinent References

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
